

Using the fine techniques employed by early craftsmen, *Ferris Rugar-award winning Hudson Valley artisan*, will guide you through handcrafting your own sack back arm chair (as shown on the front cover of this brochure).

Class will begin by shaping the spindles, arm and bow, using a drawknife and spoke shave. You will steam bend the arm and bow and set to dry.

The pine seat will be shaped using a variety of traditional tools including the *Adz*, *Scorp*, and *Travisher*. Holes will be drilled with a *Bit Brace and Spoon bits*. You will also learn how to use a *Tapered Reamer*.

The undercarriage(maple legs and stretchers) will already be turned for you, as assembly will take a bit of time.

At the end of the class you will have a completely assembled and painted chair to bring home.

These are some of the tools you will use while building your Windsor Chair.

HANDCRAFT
AN
AMERICAN CLASSIC

DO SOMETHING EXTRAORDINARY !

Have you always wanted to create a fine piece of furniture using hand tools?

Learn to build a Sack Back Arm Chair (as shown on the cover) in our workshop in a week.

This class is oriented to the novice, as well as the experienced woodworker. With personalized attention, we will help you bring out your creative abilities.

Deposit of \$400 is required at registration. The balance is due 30 days before class.

Please make check or money order payable to:

Ferris Rugar

A list of tools used in the class will be sent out to you *after* you register for class. We have a limited amount of tools here for you to share.
